DD/R-571-63

Dr. Irwin M. Tobin  
Executive Office of the President  
Office of Science and Technology  
Washington 25, D. C.

Dear Dr. Tobin:

It has just come to my attention that I had never informed you of our reaction to Dr. Gendlin's proposal for action which you forwarded in January.

I have distributed this to a number of groups which might have some interest in their general area. Their reaction was that it was interesting, but they tended to concur with you on comments. Therefore, although I think they felt they profited by reading the paper, they did not feel any further follow-up was necessary. We have kept the proposal unless you have a need to have it returned.

Thank you very much for having thought of us in this connection.

Sincerely,

Herbert Scoville, Jr.  
Deputy Director (Research)
